In this Butler University Educational Neuroscience Symposium, we will explore the brain research beneath emotional regulation, the critical executive function skills of attention and engagement and relationships. Educators, mental health professionals, parents and students will leave this symposium with:

1. Evidence-based tangible strategies for strengthening self-regulatory capacity essential for building self-reliance and adaptive functioning.
2. A deeper understanding and framework of Attention Deficit Disorder and its implications in our schools.
3. Resources, research, and an understanding that support all educational practices, K-12 that teach and enhance frontal lobe executive functioning of the brain supporting teaching practices, leadership and community engagement delving beneath student behaviors and words.

AGENDA

8:00-8:30 AM	Registration check-in
8:30-8:45 AM	Introductions
8:45-10:15 AM	Dr. Barkeley presentation
10:15-10:30 AM	Break
10:30-11:45 AM	Dr. Willis presentation
11:45-12:00 PM	Closing remarks
12:00-12:30 PM	Teacher/Student Panel
1:00-2:00 PM	VIP luncheon

SPEAKERS

Russell A. Barkley, Ph.D., is a Clinical Professor of Psychiatry at the Medical University of South Carolina. He is a Diplomate (board certified) in three specialties, Clinical Psychology (ABPP), Clinical Child and Adolescent Psychology, and Clinical Neuropsychology (ABCN, ABPP). Dr. Barkley is a clinical scientist, educator, and practitioner who has published 23 books, rating scales, and clinical manuals numbering 41 editions. Dr. Barkley has presented more than 800 invited addresses internationally and appeared on nationally televised programs such as 60 Minutes, the Today Show, Good Morning America, CBS Sunday Morning, CNN, and many other programs on behalf of those with ADHD. He has received awards from the American Psychological Association, American Academy of Pediatrics, American Board of Professional Psychology, Association for the Advancement of Applied and Preventive Psychology, New England Educational Institute, the Wisconsin Psychological Association, and Children and Adults with ADHD (CHADD) for his career accomplishments, contributions to research in ADHD, to clinical practice, and for the dissemination of science. His websites are www.russellbarkley.org and www.ADHDLectures.com.

Dr. Judy Willis combined her 15 years as a board-certified practicing neurologist with ten subsequent years as a classroom teacher to become a leading authority in the neuroscience of learning. Dr. Willis has written seven books and more than 100 articles for professional journals applying neuroscience research to successful teaching strategies. She is on the adjunct faculty of the University of California Graduate School of Education, Santa Barbara. She is one of Edutopia's "Big Thinkers on Education." www.RADTeach.com
